Description:

My name is Jimin Yang, I am currently at the age of 18. As I lived in South Korea for 12 years as well as in Canada for 6 years, both English and Korean are available to speak at any time with customers in fluent way. And a little bit of Japanese is possible in a short-term way. Because I now got into the Nait culinary program, I want to be involved in a restaurant to see how it runs with busy systems. Because I am very into Culinary, I would like to learn and study the culinary arts in restaurant menus with one's passionate mind. I am a very welcoming person. I often approach someone new first for better relationships and have a very positive mindset toward one's job for responsibility. Because of my goal toward college as a culinary degree, I'm carrying a passionate mindset to work at a restaurant or kitchen with great teamwork for teamplay and customers. Thank you for reading my brief description of mine. If you are interested, please leave the message back. Thank you!
